

# The Public Sector Deposit Fund

UK domiciled short-term LVNAV Qualifying Money Market Fund rated AA+mmf  
Fact Sheet – 31 August 2022

## Investment objective

To maximise the current income consistent with the preservation of principal and liquidity.

## Investment policy

The Fund will be invested in a diversified portfolio of high quality sterling denominated deposits and instruments. All investments at the time of purchase will have the highest short term credit rating or an equivalent and correspondingly strong long term rating.

The weighted average maturity of the investments will not exceed 60 days. The Fund will not invest in derivatives or other collective investment schemes.

## Target investors

The Fund is designed for local authorities and public sector investors seeking a high level of capital security and a competitive rate of interest for their short-term investments.

## Who can invest?

Any public sector organisation can invest in the Fund.

## Responsible investment policy

We monitor our counterparties' environmental, social and governance risk management on a regular basis. Our research utilises external data resources and our in-house Ethical and Responsible Investment Team.

## Key risks

Investors should consider the following risk factors before investing: Issuer/Credit Risk (issuer/financial institution may not pay), Market Risk (investment value affected by market conditions), Operational Risk (general operational risks), Maturity Profile (timings of investment maturity), Liquidity Risk (investment in non-readily realisable assets), Concentration Risk (need for diversification and suitability of investment) and Interest Rate Risk (changes to interest rate affecting income). Please see the Fund Prospectus for further details.

## Market update

The Bank of England's Monetary Policy Committee (MPC) raised the official rate of interest from 1.25% to 1.75%. The increase of 0.5% was the largest since before the Bank took independent responsibility for monetary policy in 1997. The accompanying quarterly report on the Bank's view of the economic outlook was deeply despondent, noting the deterioration in household finances caused principally by sharply rising energy prices. With the latest inflation data showing the CPI rising by 10.1% the MPC once again revised upwards its forecast for the peak of inflation, to more than 13% towards the end of 2022. It also projected that the UK economy would enter recession by the end of 2022 with output continuing to fall throughout 2023. The latest jobs data indicated that the labour market remained tight, with unemployment still at 3.8% - exceptionally low by historical standards and in line with the level seen just before the pandemic. However, the MPC report anticipated that as economic activity slowed, unemployment could be expected to rise, to over 5% by the end of 2023 and over 6% by mid-2025.

\*Dealing instructions (including cleared funds for purchases) must be received by 11.30 am. \*\*The OCF is based on the annual management charge ("AMC") but excludes portfolio transaction costs. The AMC for the Fund is 0.10% and is inclusive of all other costs and expenses of operating and administering the Fund such as depositary, custody, audit and regulatory fees. The AMC was reduced to 0.08% on a temporary basis in November 2015 to improve the income distribution, due to low interest rates. In May 2021, the AMC was temporarily reduced further to 0.06%. \*\*\*With effect from 1 April 2022 and until further notice, the AMC applied to the Fund reverted to the previously discounted rate of 0.08%.
